Objective

Innovative and detail-oriented designing, developing, and deploying machine learning models and AI-driven solutions. Adapt at solving complex business problems through predictive analytics, natural language processing (NLP), and computer vision. Skilled in building scalable AI systems, data preprocessing, feature engineering.

Education

- **B. Tech CSE(AI&ML)**
 - R R Institute Of Modern Technology (AKTU) - 78% 2022- Present
- **Intermediate**
 - A B S Inter College (BSEB) - 61% 2020-2022
- **High-School**
 - S M T High School (BSEB) - 73% 2020

Project

- **Disease Prediction System (ML)** JULY-2025
 - Developed a Disease Prediction Web App using Django and Machine Learning.
 - Integrated ML model (scikit-learn) for health data analysis and prediction.
 - Live🔗
- **EncryptoSafe (Python-Based)** NOV-2024
 - Developed a Python-based web for encrypting and decrypting files using AES Encryption.
 - Implementation cryptography library for secure data encryption.

Certification

- **Python 101 for Data Science**
(Cognitive Class) JULY-2025
