🔑 Uday844113

OBJECTIVE

Aspiring Data Science and Machine Learning professional with strong knowledge of Python, SQL, and data analysis. Skilled in data preprocessing, predictive modeling, and building machine learning applications using Scikit-learn, Pandas, and NumPy. Passionate about solving real-world problems using data-driven insights and statistical techniques.

EDUCATION

R R Institute Of Modern Technology (AKTU) **2022 – Present**
B.Tech CSE(AIML) - CGPA - 7.8 *Lucknow, India*

A B S Inter College (BSEB) **2020 – 2022**
Intermediate - Percentage - 61% *Lalganj, India*

S M T High School (BSEB) **2019 – 2020**
High-School - Percentage - 73% *Vaishali, India*

TECHNICAL SKILLS

Programming Languages: Python, Java, C, HTML, CSS

Data Science: Data Cleaning, Predictive Modeling, Classification Algorithms, Feature Engineering

Developer Tools: VS Code, Jupyter Notebook, Google Colab, Power BI

Frameworks/Libraries: Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, Streamlit, Django

Machine Learning Algorithms: Logistic Regression, Decision Tree, Random Forest, Support Vector Machine

Database: MySQL

PROJECTS

Disease Prediction System 🔗 | Python, Django, Scikit-learn, Pandas, NumPy **July 2025**

- Developed a **machine learning-based web application** to predict diseases from user-input symptoms. Integrated the trained model with a **Django web interface** for real-time disease analysis.
- Implemented classification algorithms using **Scikit-learn** and performed data preprocessing.

Fraud Detection System 🔗 | Python, Scikit-learn, Pandas, Streamlit **Nov 2025**

- Built an ML-based fraud detection model using Python and Scikit-learn.
- Applied anomaly detection techniques to identify fraudulent transactions.

Smart Curriculum & Attendance System 🔗 | Python, DL, OpenCV, Django, SQL **Feb 2026**

- Developed a **face recognition attendance system with real-time liveness detection**.
- Used deep learning and computer vision techniques to **detect and verify live faces in real time**.
- Automated attendance tracking using **SQL database integration**.

INTERNSHIP

SoftPro India 🔗 **July 2025 – Sep 2025**
Data Science Intern *Lucknow, India*

- Performed **data preprocessing, cleaning, and visualization** using **Pandas, NumPy, and Matplotlib**.
- Built **predictive models and classification algorithms** using **Scikit-learn**.
- Analyzed datasets using **Python and SQL** to extract insights and support data-driven decisions.

EXTRACURRICULAR

Hacklance Club 🔗 **Apr 2025 – Present**
President *RRIMT, Lucknow*

- Led the Hacklance Club by organizing hackathons, coding competitions, and workshops to promote AI, machine learning, and innovative problem-solving among students.
